

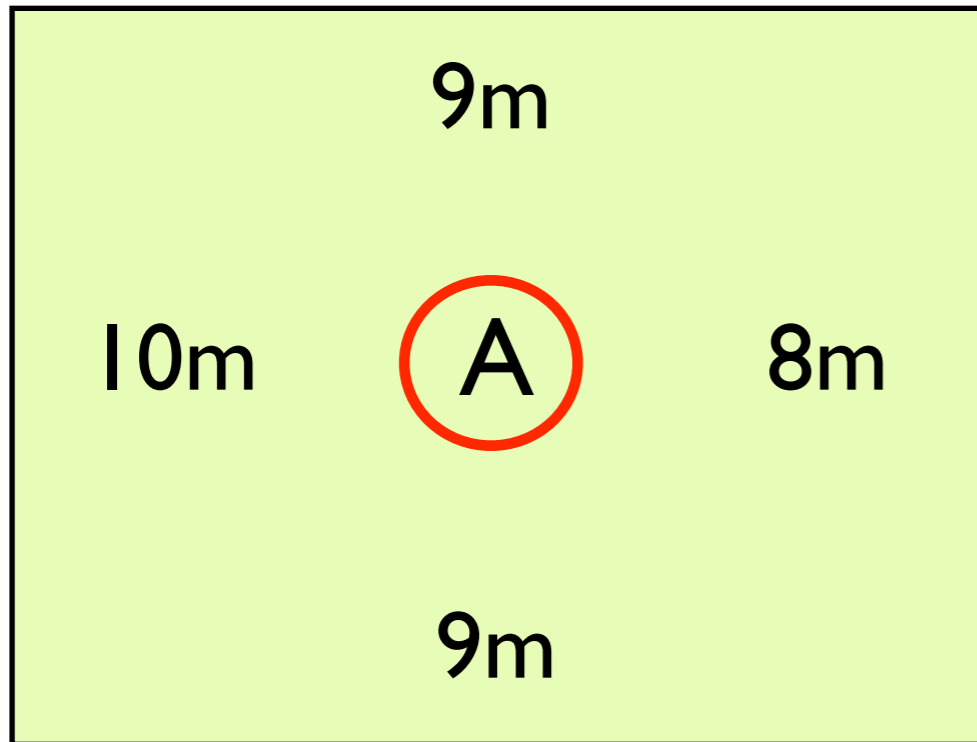

Mapping your watershed

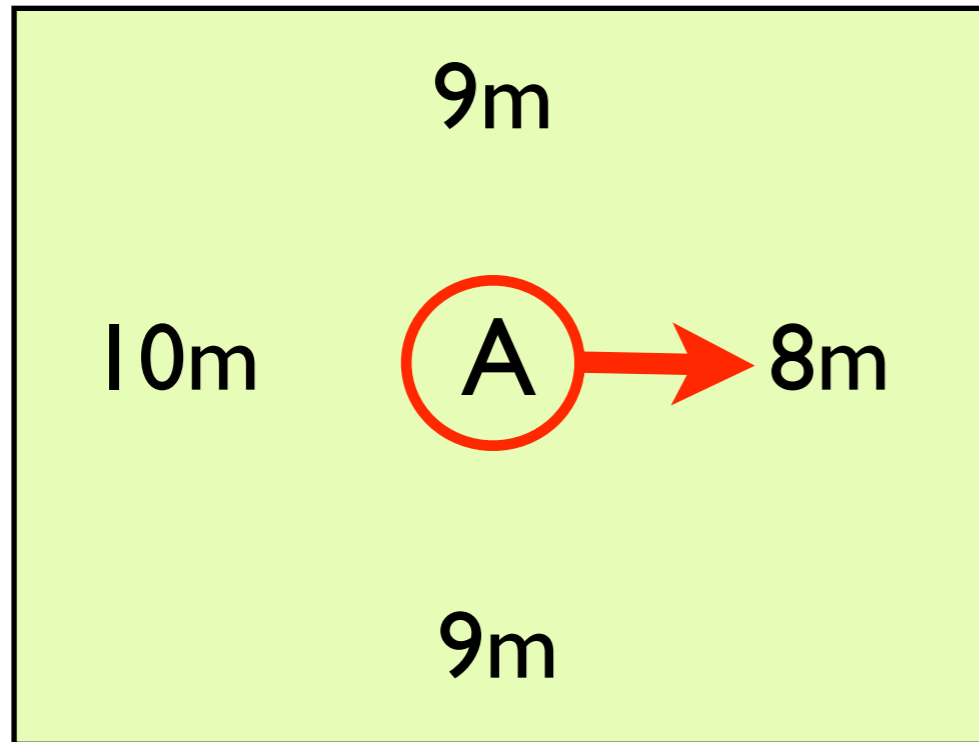

watershed (n): the area of land where all of the water goes to the same place

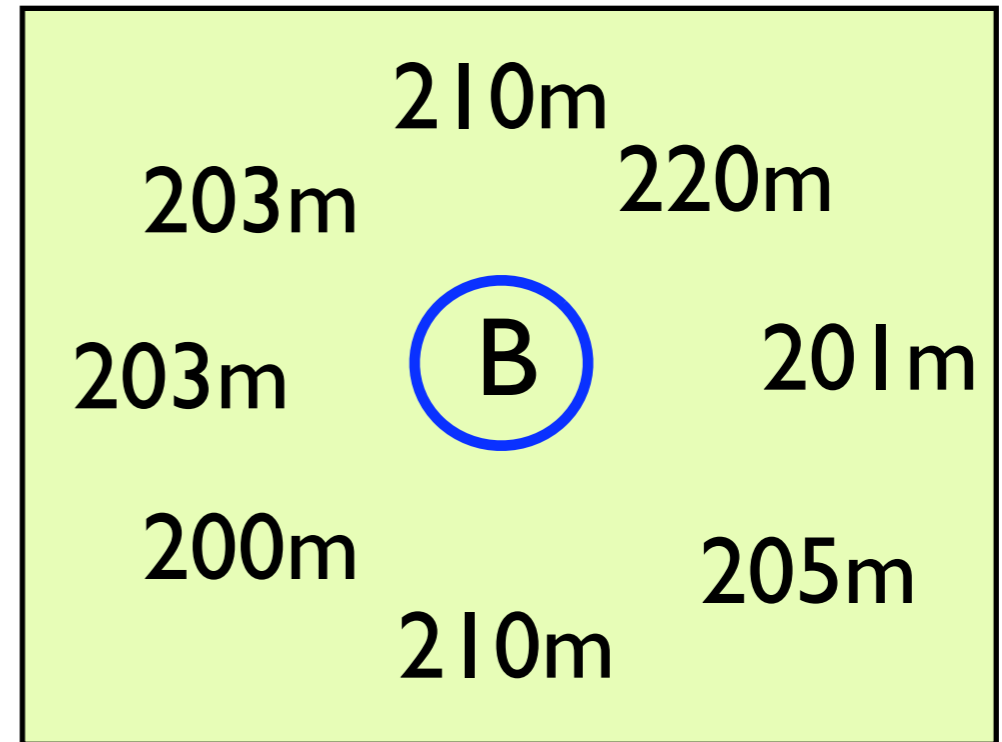

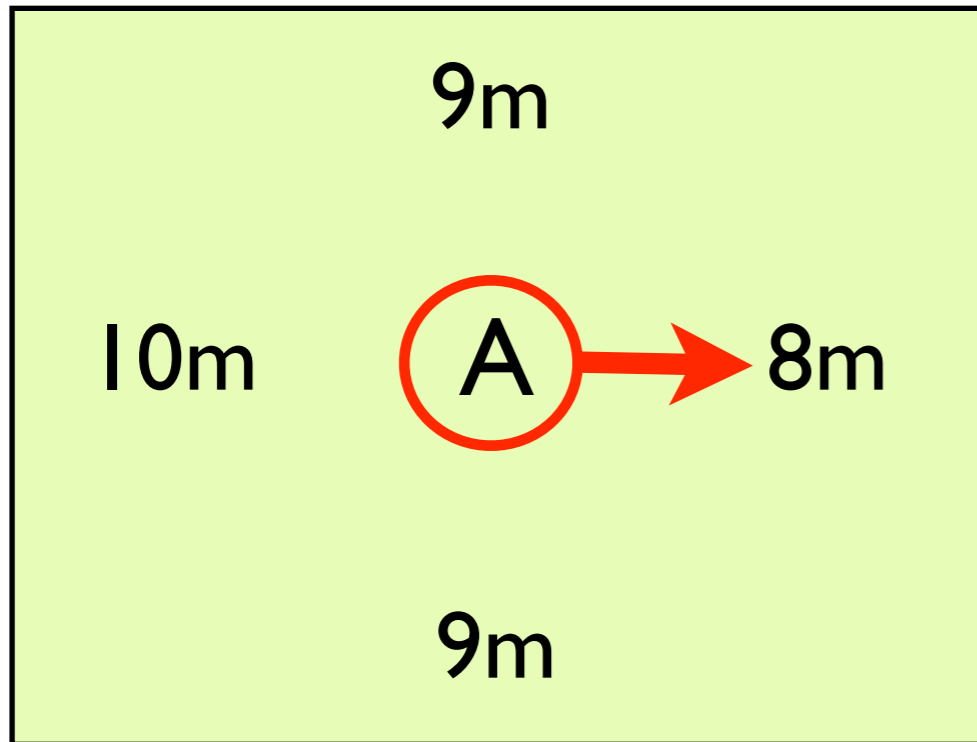

which way will water flow?

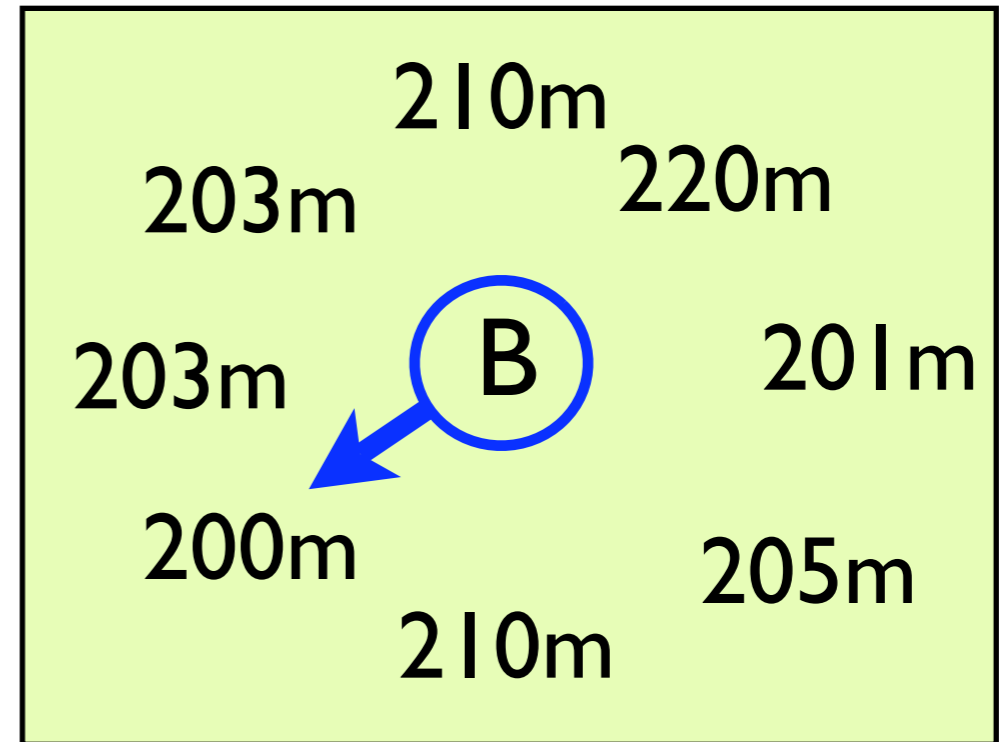

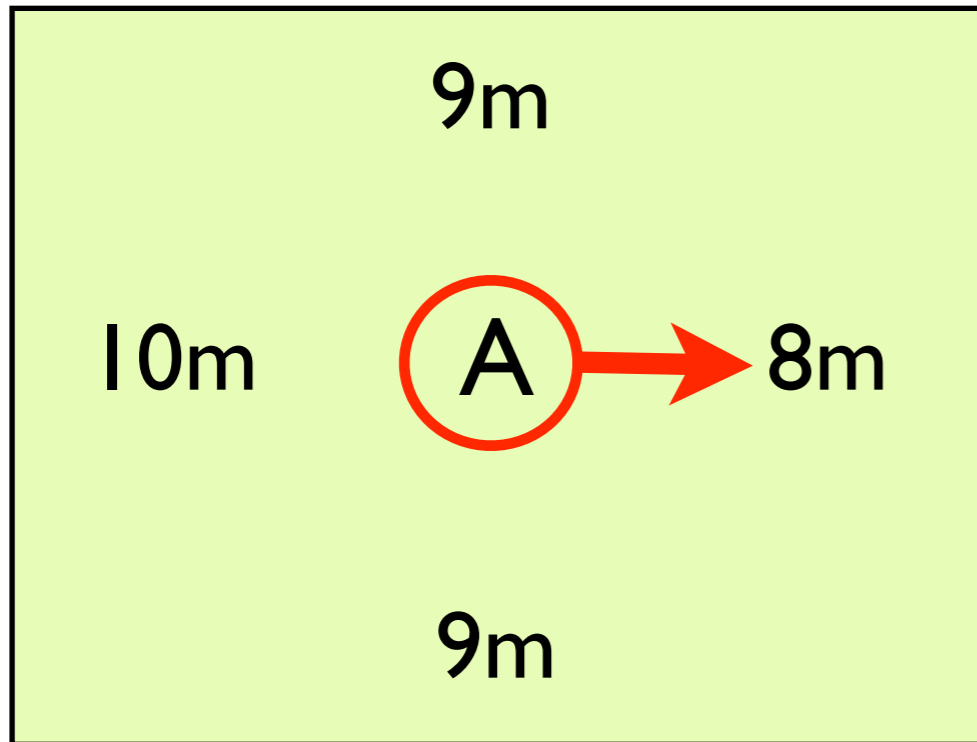

which way will water flow?

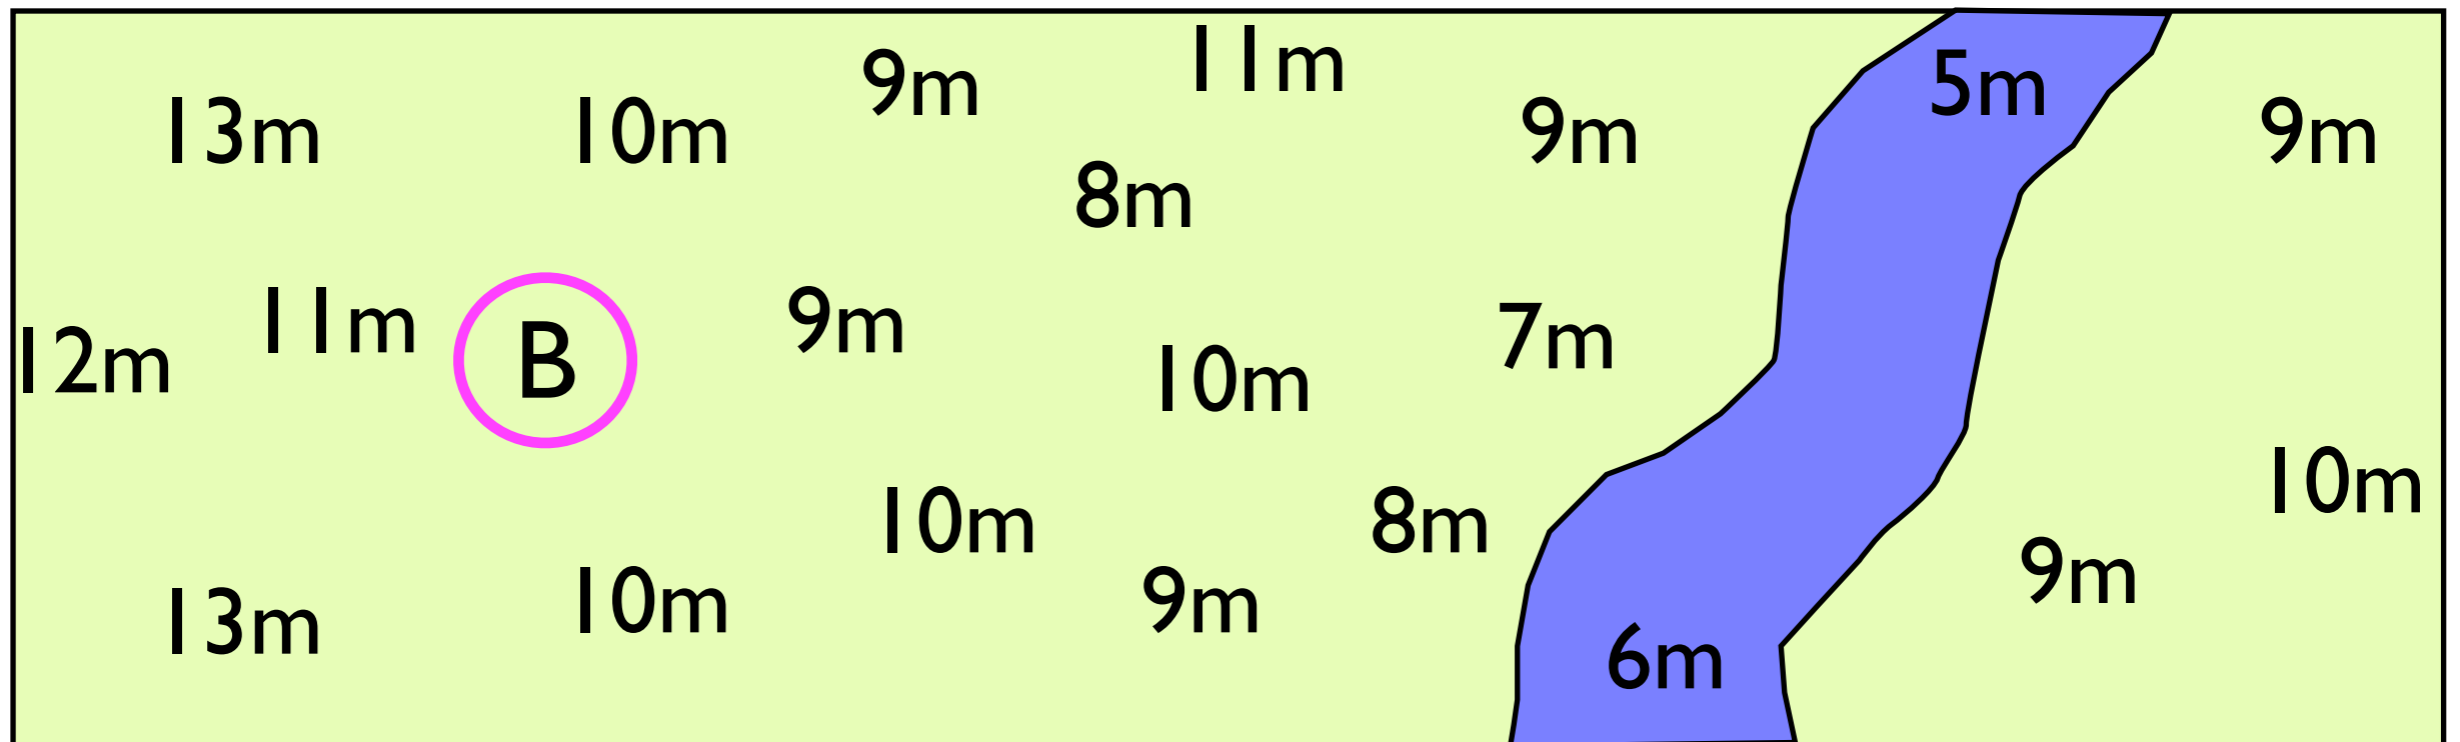

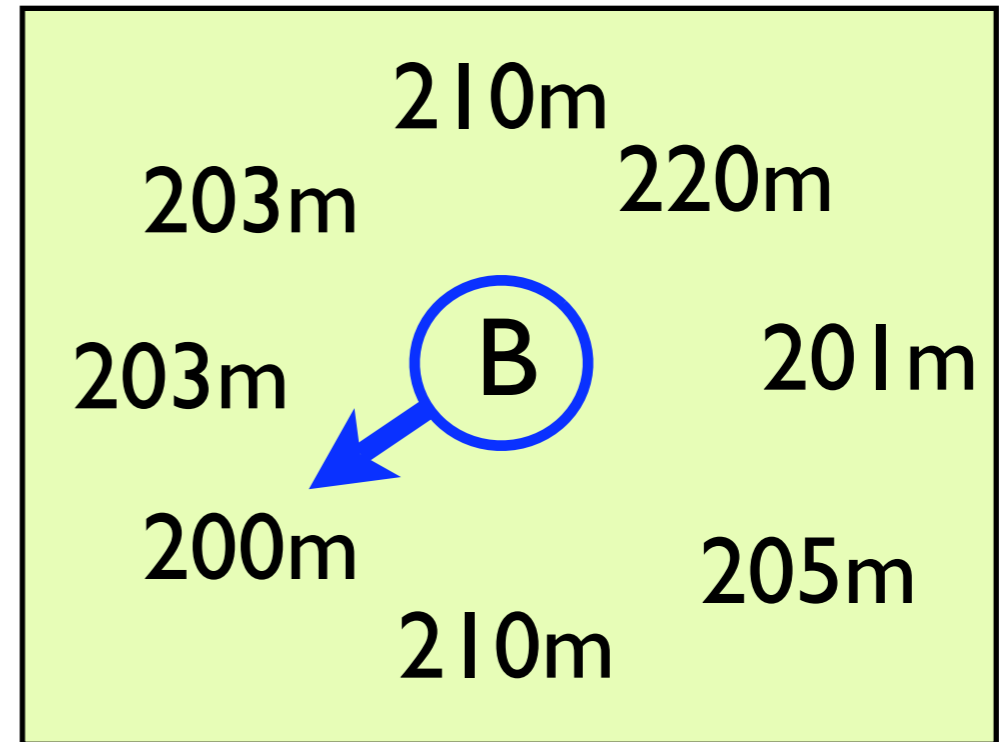

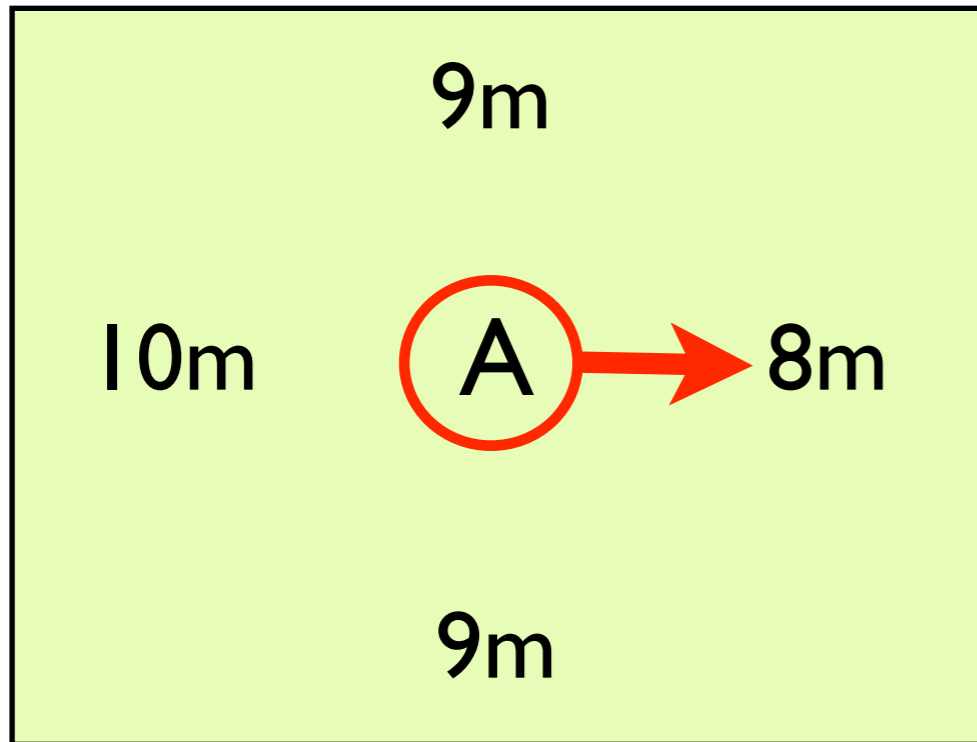

which way will water flow?

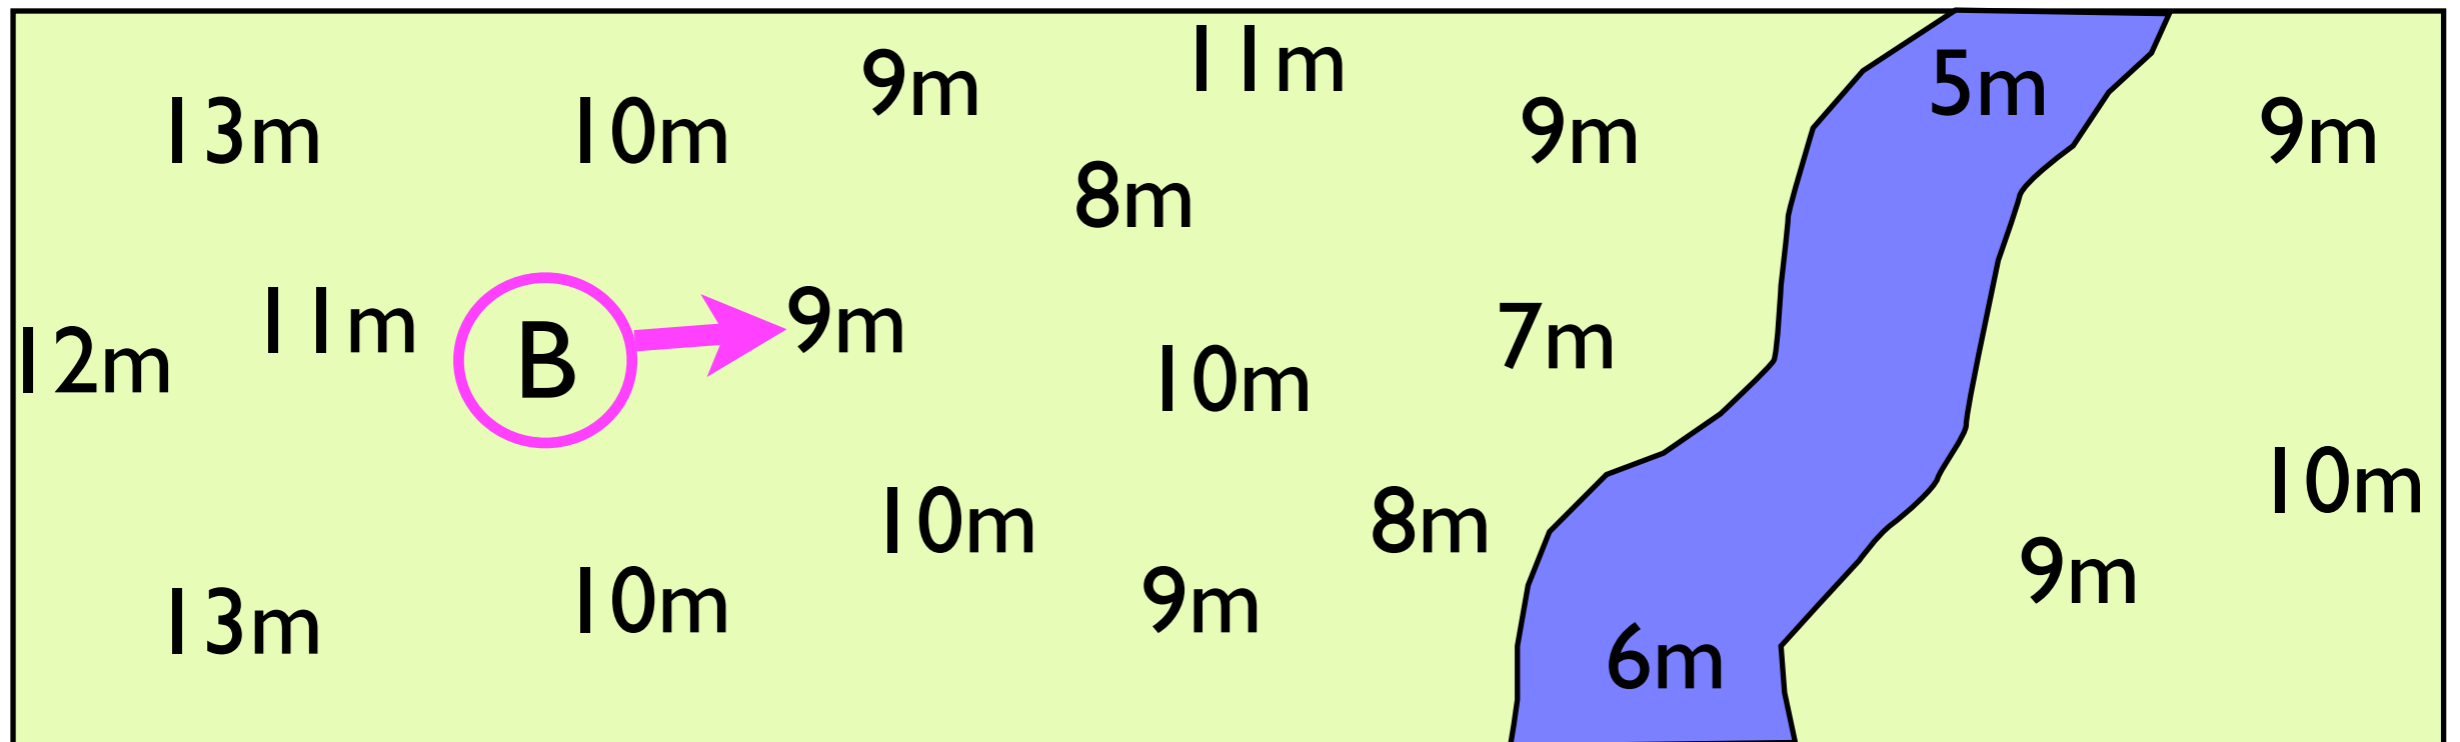

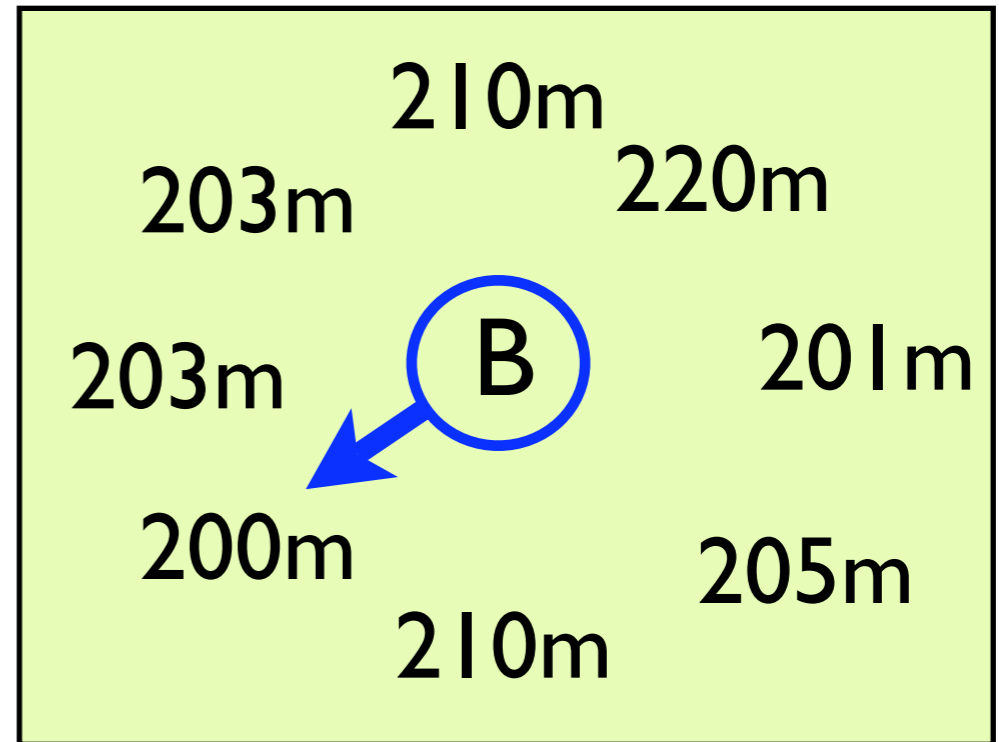

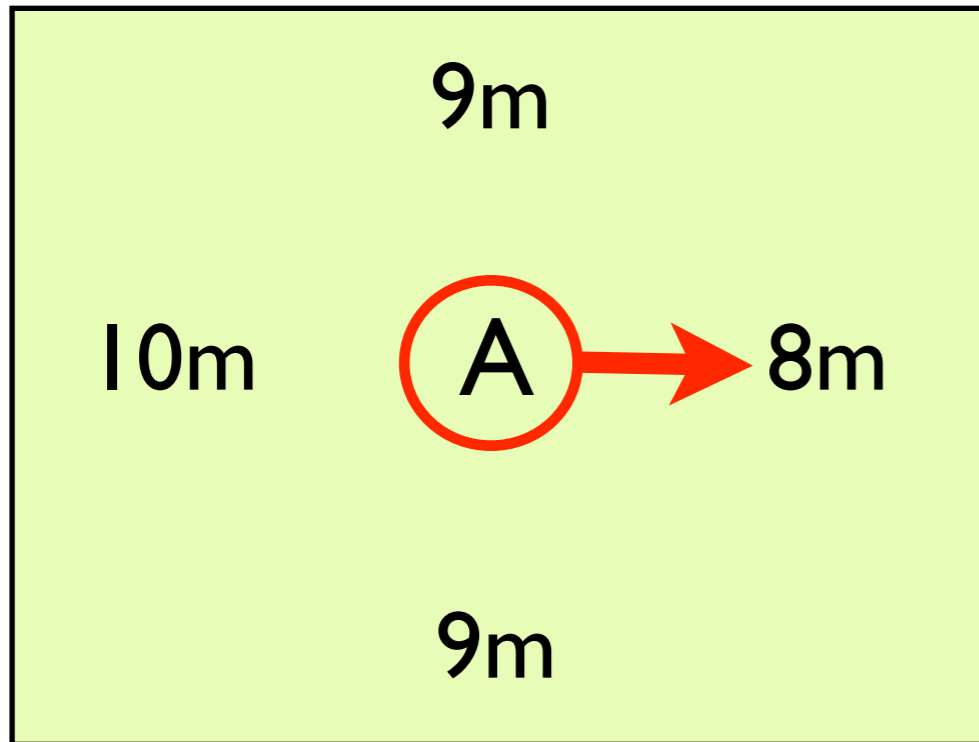

which way will water flow?

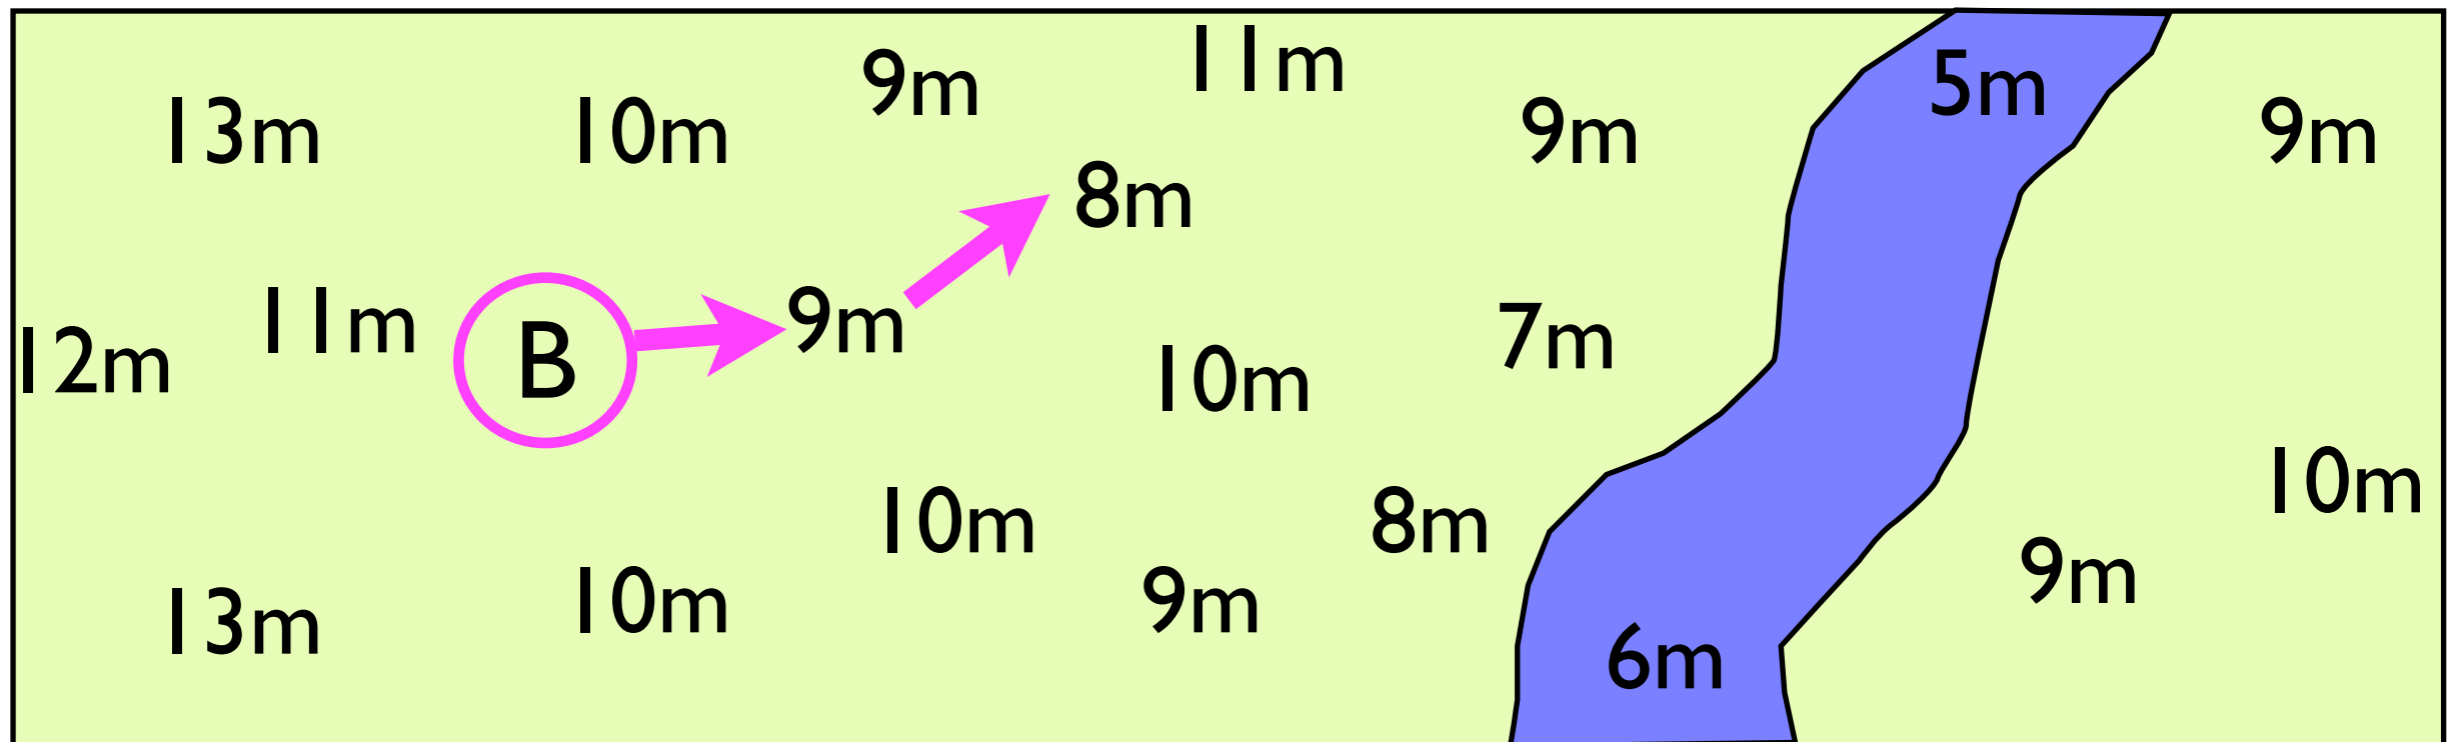

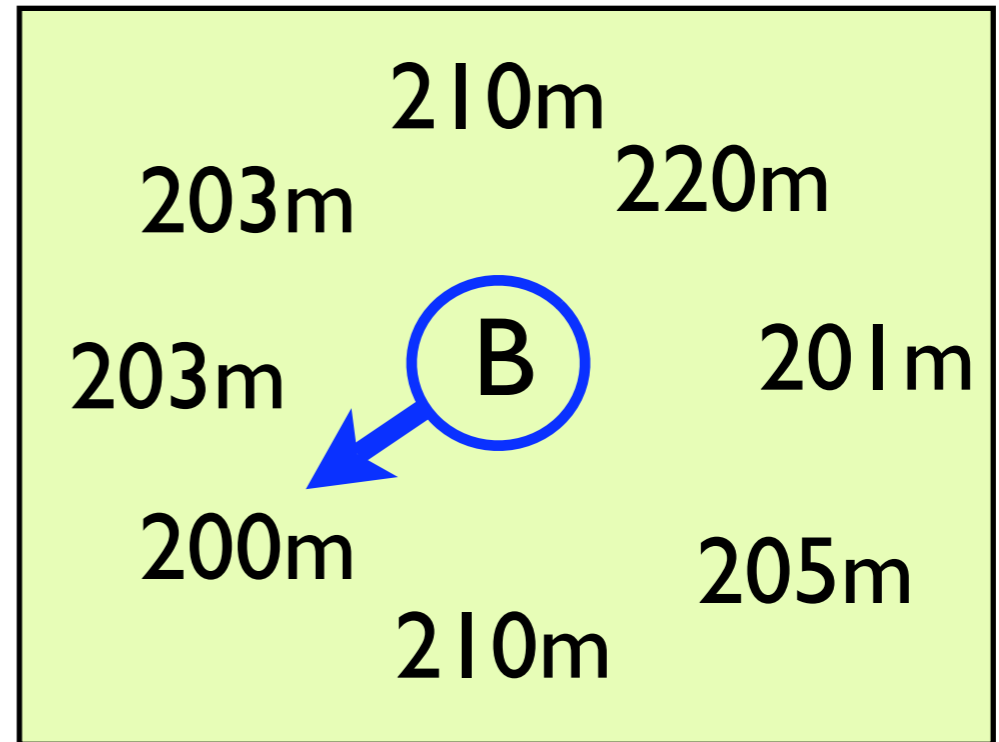

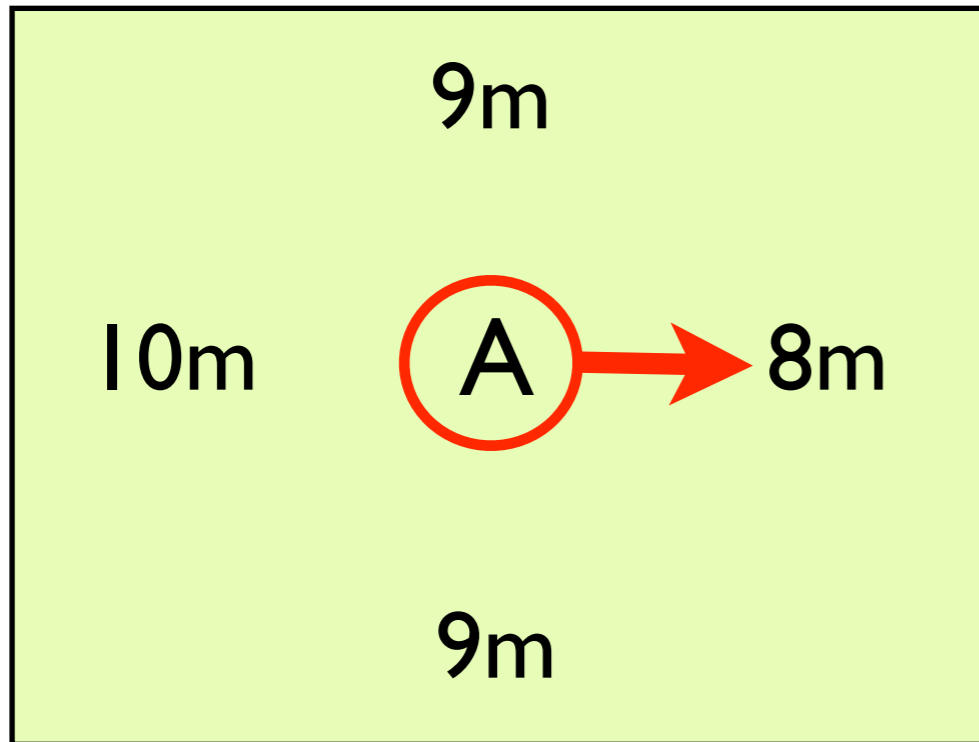

which way will water flow?

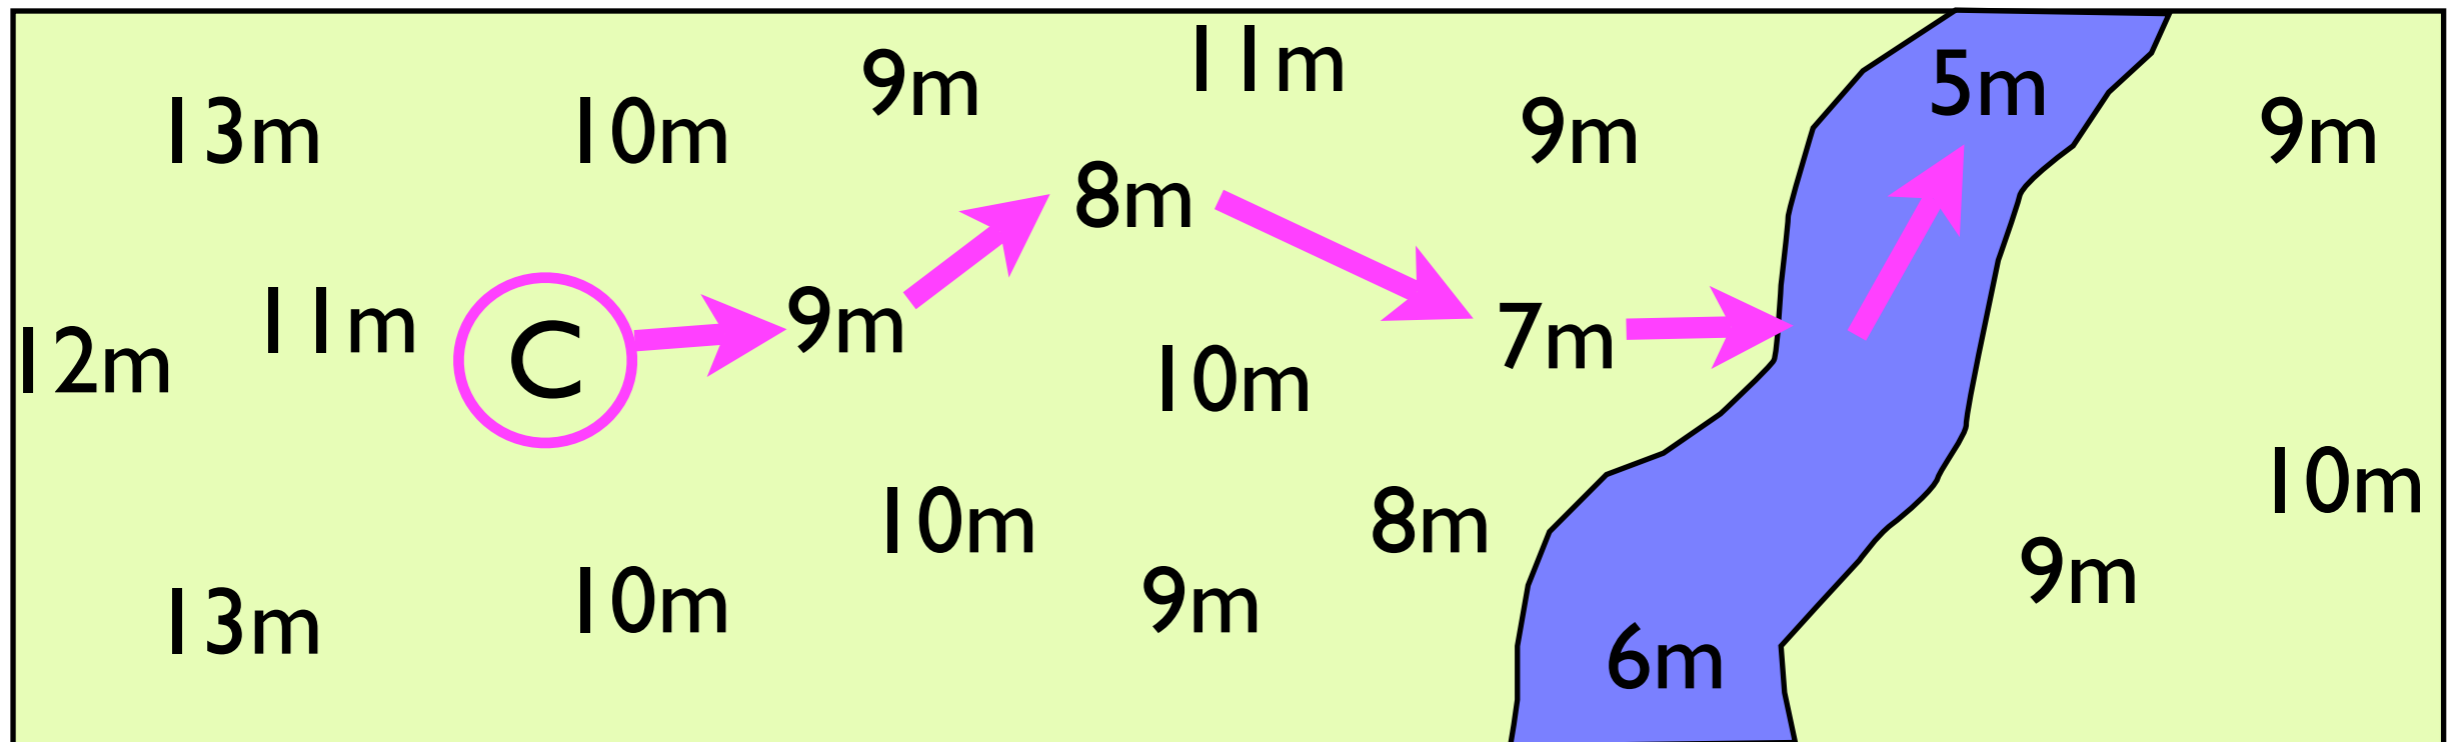

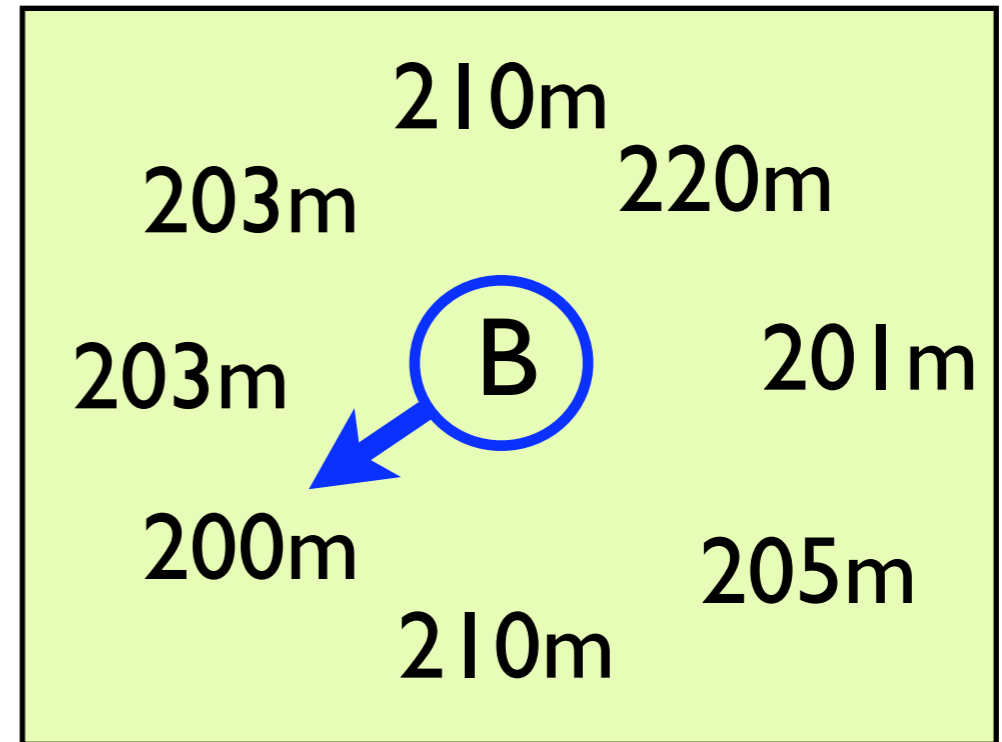

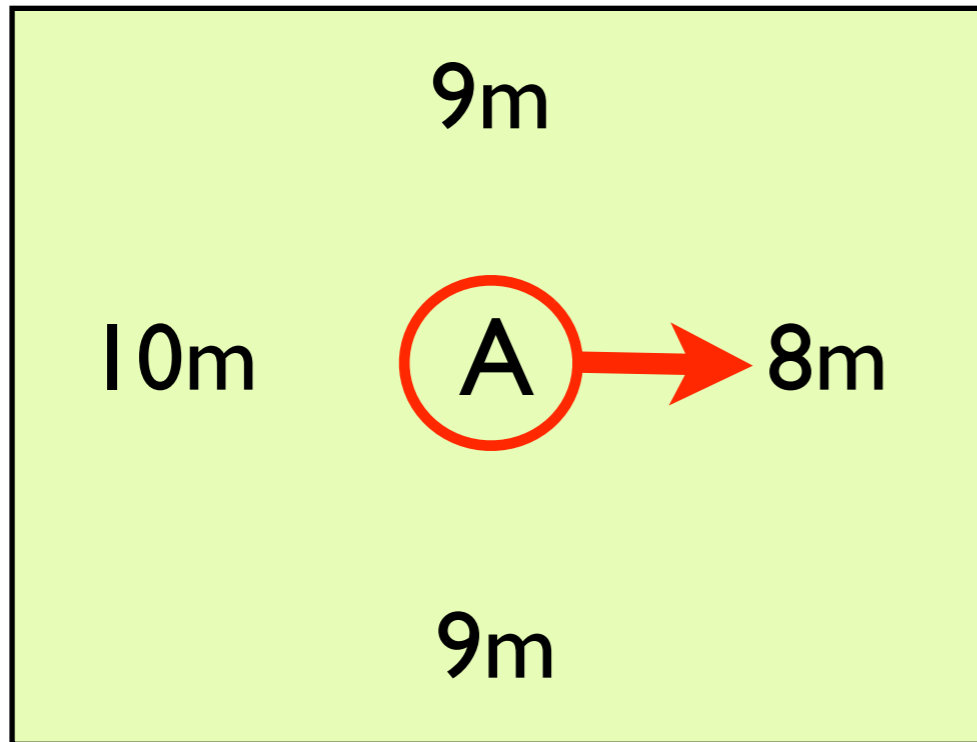

which way will water flow?

which way will water flow?

which way will water flow?

Mapping your watershed:

- find where you live on a map
- find the water's path from your home to the ocean
- what does your water flow through?
- think: what ecosystems does the water travel through?
how far does the water travel?
